of Reports per Province

of Reports per Province - 2021 Map

of Reports per Province - 2022 Map

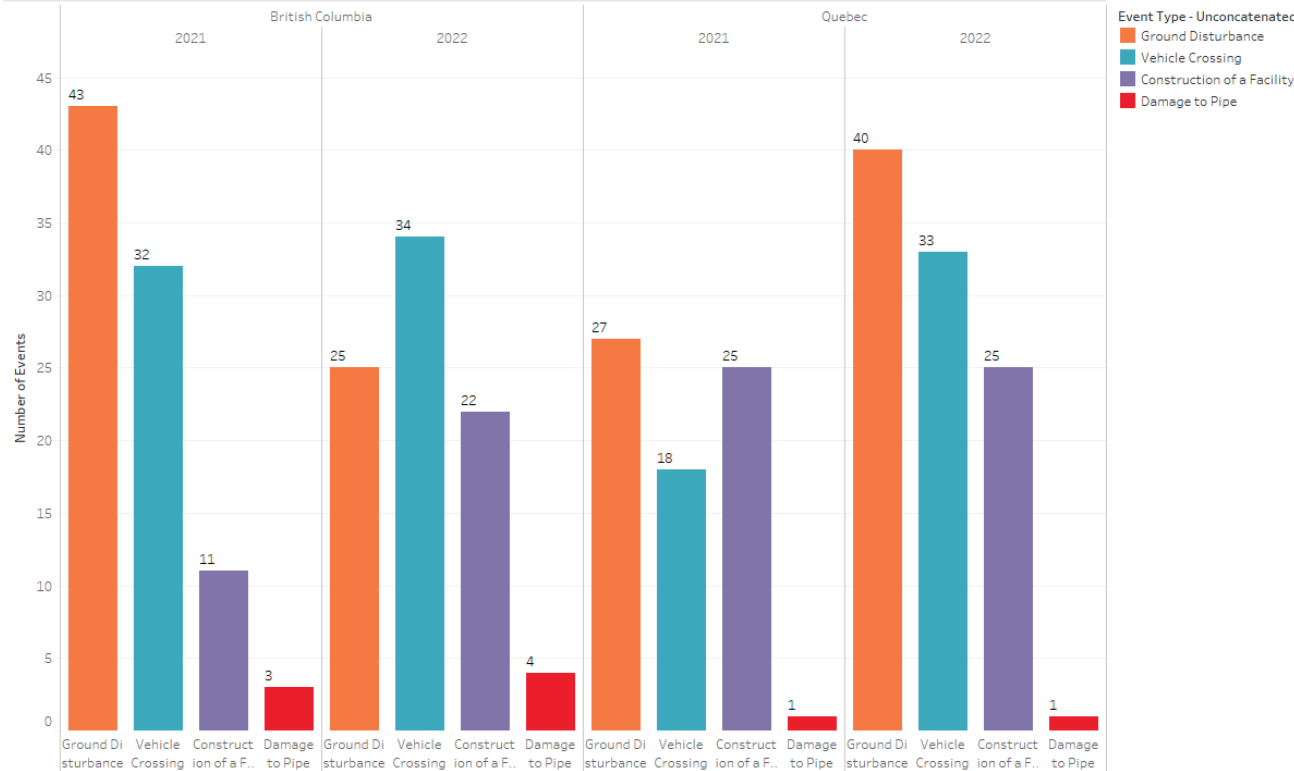

BC vs. QC

What Changed?

- BC – Reduction in ground disturbances, but increase in facility construction
- QC – Increase in ground disturbances and Vehicle Crossings

Event Types per Province

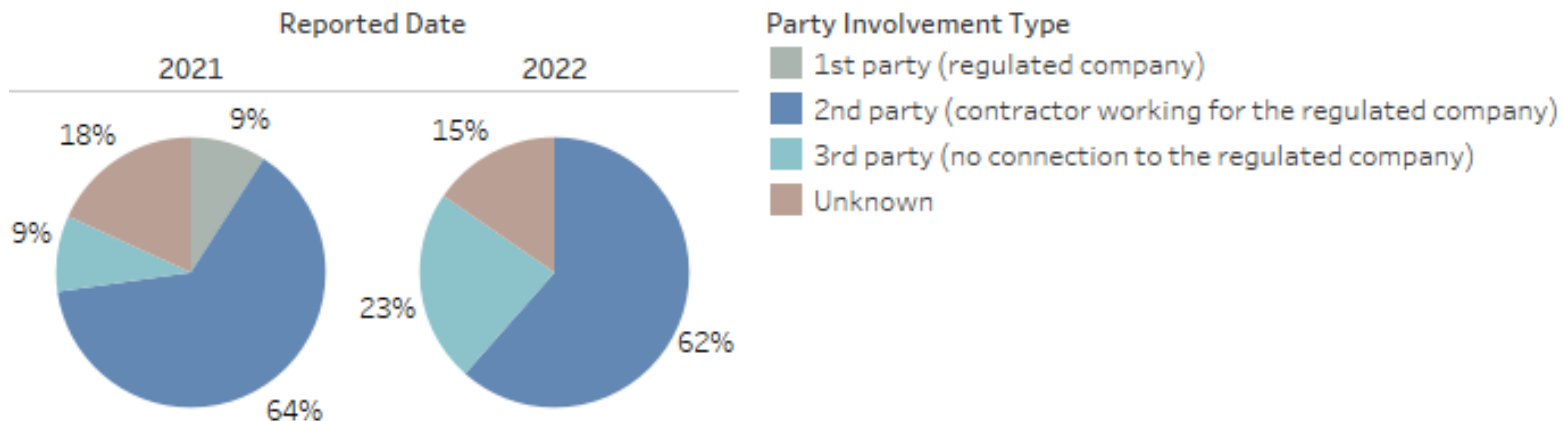

Damages to Pipe

Who is involved?

- Most DTPs continue to involve 2nd party contractors

% Parties Involved in DTPs

Potential ideas of future topics to explore

- When was a locate done?
- More about DTPs?
- The types of equipment used?
- The types of facilities being constructed?
- Types of 3rd parties involved?
- Any interest in more vehicle crossings data?
- Any other ideas? Anything else that can be useful to you?
